RE: Expiration of ML 45409-BSLS / Reclamation Requirement  
Torrey Buff Quarry / DOGM Permit #S055012

Dear Mr. Young:

The above numbered mineral lease, ML 45409, for building stone and limestone upon trust lands in Wayne County expired on September 30, 2011. All rights granted to the lessee are terminated and no further mining activity is allowed. The lands disturbed by lessee's activities under ML 45409-BSLS must be reclaimed in accordance with the terms and conditions of the lease, the rules of the Trust Lands Administration, the rules of the Division of Oil Gas & Mining, and such DOGM reclamation contract as may be in force. The Trust Lands Administration authorizes you to enter the subject lands for purposes of performing the required reclamation work and requests that you complete the required reclamation work within the next thirty (30) days. The Trust Lands Administration will assume no liability for personal injury or personal property damage to you or your agents in your performance of the required reclamation work upon trust lands.

Please coordinate your reclamation efforts with the Division of Oil, Gas, & Mining in regard to DOGM permit #S055012. The completed reclamation work is subject to inspection and acceptance by the Trust Lands Administration. Lessee's \$5,000 cash bond previously posted with the Trust Lands Administration as reclamation surety for the Torrey Buff quarry was transferred to the Division of Oil, Gas & Mining for safekeeping on December 8, 2006. Lessee's failure to timely reclaim the Torrey Buff quarry may result in forfeiture of the bond. Please contact me if you have any questions in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "John T. Blake".

John T. Blake  
Deputy Assistant Director/Minerals
